Summary

Aspiring Software Engineer eager to contribute to team success through hard work.

I am passionate about teamwork and technology.

I am a second year student at WeThinkcode .
I worked hard to hone my software development and software engineering skills. I am focused and attentive to detail when addressing high-volume task loads to meet deadlines. I am inspired by making a positive impact by applying software testing skills and my problem-solving abilities allow me to address challenges to achieve results.

My academic experiences have served me well in developing my problem-solving, communication, and critical thinking skills.As a student from WeThinkCode I have strong knowledge in a few programing languages; including Python, Java,Flutter ,SQL, Java Script, HTML and CSS. I work well to use clear and concise communication to interact professionally with my team mates.I believe will serve as an asset.I would like to expand my knowledge in the software industry and gain experience.

I enjoy problem solving and I am motivated by the thought of incorporating tech into my day to day live.
